

# Brandtson, Escapist

and this one is certainly an interesting story  
it starts with an ending  
and we're both characters in a play  
on the same stage, but on a different page

and you'll go on to become the queen of some kingdom  
and i'll be that monster of myth  
off in some forest, mire or filth, yeah

this time around, i'll meet you halfway  
and i won't spend my life  
lying awake at night  
and they'll say i'm the emerald missing from your crown  
the greatest escapist the world has ever known

now it's so clear to me  
we should have seen this coming  
back at the beginning  
and we both chose to take this road to the same place  
but at a different pace

this time around, i'll meet you halfway  
and i won't spend my life  
lying awake at night  
and i'll say i'm the fabled one that let you down  
the greatest escapist the world has ever known
