

Brandtson, Here We Go

This one goes out to the boys and the girls
You know, who just don't feel like they fit into this world
Here we go!
This one is for all the lonely souls
That know that everything is spinning out of control
And it goes

This one goes out to the boys and the girls
You know, who just don't feel like they fit into this world
Here we go!
This one is for all the lonely souls
That know that everything is spinning out of control
And it goes a little something like this
As simple as it is
You just gotta say "Hey, na na."

[Chorus:]
Na, na, na, na,
Here we go again
Na, na, na, na,
Turn the stereo up
Na, na, na, na,
You just gotta sing
Hey ne na, ne na

This one goes out to the few of you
That we know we've never met
But feel just like we do
Here we go!
Well, this is our way of letting you know
That we know how bad it is
And that you're not alone
And it goes a little something like this
As simple as it is
You just gotta say "Hey, na na."

[Chorus x2]
