

Brandtson, Long Walk Home

I wanna walk in your rain
just damp at first
wet spots on my shirt
soak it all in
soaked to my skin
clothes heavy with water

downpour

how'd I get so far
away from where you are
and never notice till now?
if I thought that I could speak
and if I thought that you'd hear me
this is what I'd ask for

a downpour

(CHORUS)

I wanna know your name
I wanna hold your hand
and soak it all in
I wanna feel the rain
on my face again
and soak it all in

I want you to come be me
share my eyes and splash with me
puddles won't matter at all

downpour

(CHORUS)

it doesn't matter
where you are now
you can always come home
