

# Brandtson, Parallels

Sleepy eyes, crooked smile  
I think I may have lost the fight  
Falling down, fading out  
I think I'm done tonight

Look at me now,  
I don't know how things got so crazy  
I'm in the same old sorry state  
That I always wake up to

Follow me out,  
Out of the way to the place you'd rather be  
Feels like heaven in the sun  
When the clouds roll in we'll scream

Let it rain for now  
Let it rain for now

I'm coming down  
I'm back in the place I was in when I started out  
Wasn't pretty then  
It's not pretty still  
But pretty soon it's me

????????????????????  
I guess we'll see where tomorrow takes me  
It's like you always used to say,  
"Just let the chips fall where they may"

Let it rain for now  
Let it rain for now

Let it rain for now  
Just let it rain for now

Hello again  
You are the friend that never let me down  
You got this funny way of being here,  
When I need you around

Are you staying for a while?  
Why don't you stay here for a while?  
Are you staying for a while?  
Why don't you stay here for a while?

Look at me now  
Look at me now  
Why don't you stay here for a while?  
We'll say what the hell, just

Let it rain for now  
Let it rain for now

Let it rain for now  
Just let it rain for now
