

Brandy, 1st and Love

I aint getting no younger
So boy when I say love
I dont say it just to say love
I know better
If you never showed love
Dont think I wouldve known love
Gotta put it in my song love
And sing it over and over
I, told my mother that I love you
My brother asked where I met you
Said I saw you last Tuesday on the corner of 1st and love
I heard you, whistling my favorite song
When I saw you that morning on the corner of
1st and love
Right there, right there, ooh
And I wanna sing it to the world
Hes right there, right there
On the corner of 1st and love
My hearts beating like a bass drum
I heard cupid in my ear
He said he never saw better
I gave him a straight shot
And it hit me like a moving truck
Oh oh, like an enema
But it never felt so good
I told my mother that I love you
And Ray J asked where I met you
Said I saw you last Tuesday on the corner of 1st and love
I heard you, whistling my favorite song
When I saw you that morning on the corner of 1st and love
Right there (right there)
Right there (right there), oh (oh)
And I wanna sing it to the world
Hes right there (hes right there)
Right there (saw my baby right there)
On the corner of 1st and love
They say serendipity
Know, know that its meant to be
Love, dont feel like love to me, no (love to me, no)
Know that it had to be love
Like our names carved on a tree
Theyre memories inside of me
Dont know how long forever is
But if you stay with me, youll find out with me
Oh if the sun dont rise for weeks
Baby thats alright with me
I cant add to infinity
But if you stay with me
You can count on me oooooh
Right there (Im so right there)
Right there (Ooh, its on 1st and love where I saw my baby)
And I wanna sing it to the world (oh)
Hes right there (right there)
Right there (right there)
On the corner of 1st and love
I saw you by the street signs
oh I saw you by the street signs
Stay read 1st and love
Love, love, love
