

# Brandy, Sunny Days

1 - What's a sunny day without you  
Just another twenty-four that passes by  
What's a sunny day without you  
Just another twenty-four that passes by

As I sit upon  
The grass in the shade  
I reminisce on what we had  
The moments that we shared  
Strolling through the park  
Two people in love walking hand in hand

2 - But now, that you're gone  
I feel, so alone  
All I do is think of you  
Til the day you return  
It doesn't mean a thing

Repeat 1

It's funny how  
You learn from your mistakes  
Sometimes we take things for granted  
But now that I have a chance to make it right  
I wanna give you, I wanna give you all my love
