Everybody won&#039;t you get up right about here  
We gonna do it tonight  
It that right y&#039;all  
Ha, ha  
Say, &quot;Ho-Ho&quot;  
Lawdy, lawdy, lawdy  
Just a little this and a little that  
Sing, y&#039;all, sing

People all over the world  
Searchin&#039; for direction  
Searchin&#039; for a ground  
Now we got the connection (That&#039;s right)

Get up, let&#039;s get down  
Hey...to the real nitty gritty, yeah  
Cause tonight&#039;s the night, gonna make it right  
Put your head up to the sky, let the music take you  
high

Can you see the light (I can see the light)  
I, I mean can you see the light (I can see the light)  
Hey, can you see the light (I can see the light)  
Can you see that hell of a shinin&#039; light, y&#039;all (I can  
see the light)  
Come party

There&#039;s a message in music, y&#039;all  
Check it out  
Just a little of this and a little of that, y&#039;all, so  
Hey  
Ooh, come on

Won&#039;t you take my hand  
Come along now  
Yeah  
Won&#039;t you take my hand  
Come on, come on

Go down  
You could do it now, you could do it, y&#039;all, come on  
You could do it, y&#039;all  
It&#039;s written  
Where there&#039;s a will there&#039;s a way  
And I say unto you, &quot;Follow me&quot;  
And you shall see an ever shinin&#039;, everlasting, ever  
shining light

Can you see the light (I can see the light)  
Can you see the light (I can see the light)  
Can you see the light (I can see the light)  
Can you (I can see the light)

Can you see the light (I can see the light)  
Can you see that hell of a shinin&#039; light, y&#039;all (I can  
see the light)  
I say, I say can you see the light
