

Brassy, Play Some D

I'm gonna play some D (Let's see)
I'm gonna play some D
One, two, three

Be told, you'll never get a hold of mine
What I got going, now that it's flowing
I know your plan, yeah
If you think you can grind me down, wear me out
Hang me up to dry
But I'm telling you why
It's never gonna be

I'm gonna play, play, play
Play some D
I'm gonna play, play, play
Play some D
I'm gonna play, play, play
Play some D
I'm gonna play, play
I'm gonna play some D

I'm gonna show you what (what)
I really got
Fortification, pit formation
You wanna take it one step
One step too far
Look around, consider where you are
Coming too close
You get a full dose of my remedy

I'm gonna play, play, play
Play some D
I'm gonna play, play, play
Play some D
I'm gonna play, play, play
Play some D
I'm gonna play, play
I'm gonna play some D

I'm gonna take total (wow)
Control of the whole
I got the nerve to really serve you
What you've been begging for
Try and boss me
Well that's a costly mistake you're making
Cuz I don't take it, I dictate it
Spell it, O-U-T

I'm gonna play, play, play
Play some D
I'm gonna play, play, play
Play some D
I'm gonna play, play, play
Play some D
I'm gonna play, play
I'm gonna play some D

I'm gonna show you what (what)
You got coming to you
So back off, unless you wanna get caught
In my show of strength
Don't you test the length of this tether
Whether or not you're feeling lucky
Cuz I respond the way I want

Knock you O-U-T

I'm gonna play, play, play
Play some D
I'm gonna play, play, play
Play some D
I'm gonna play, play, play
Play some D
I'm gonna play, play
I'm gonna play some D

I'm gonna play some D
I'm gonna play some D
I'm gonna play some D
I'm gonna play some D
I'm gonna play some D
I'm gonna play some D
