

# Bratz Rock Angelz, Best friends

Put your hands up, raise your hands up,  
Put up a hand for your best friends,  
Put your hands up, raise your hands up,  
Put up a hand for your best friends....  
Some friends come, some friends go,  
But there's no one like you,  
You're the only friends I would tell my secrets to,  
We got a special bond that no one can break through,  
We're just like sisters,  
And we stick together like glue....  
Girls you know that we can read each others' minds,  
And we've got each others' backs all the time,  
So we just thought that we would let you know,  
We'll be your friends for sure....  
Best friends,  
Girls, they never let each other down,  
We're best friends,  
No matter what we'll always be around,  
When you need someone to talk to, girls,  
You can count on us to be your best friends....  
When you're glad, when you're sad,  
We will be right here,  
Anything you go through, call us up and share,  
That's what friends are for, we will lend an ear,  
Any burden that you carry will be ours to bear....  
Girls you know that we can read each others' minds,  
And we've got each others' backs all the time,  
So we just thought that we would let you know,  
We'll be your friends for sure....  
Your best friends,  
Girls, they never let each other down,  
We're best friends,  
No matter what we'll always be around,  
When you need someone to talk to, girls,  
You can count on us to be your best friends....  
Girlfriends count on us,  
We will be around whenever you need us,  
Friends for life, yes indeed,  
Got each others' backs permanently....  
Put your hands up, raise your hands up,  
Put up a hand for your best friends,  
Put your hands up, raise your hands up,  
Put up a hand for your best friends....  
Best friends,  
Girls, they never let each other down,  
We're best friends,  
No matter what we'll always be around,  
When you need someone to talk to, girls,  
You can count on us to be your best friends....  
Best friends....we're best friends....  
Girls, you can count on us to be your best friends....
