

Bratz, What's Going On

I wanna know somethin'....what's goin' on?

I can feel it comin',
Yes, there's something building up around me,
Rushing through the airways,
And I know I gotta move my body

(Everybody)
Hey, hey, you,
I need to know,
Just how hot you'll make it,
Once you feel the record drop,
(record drop)

So mister, turn the radio on,
All you girls wanna hang up your phones,
And get on down to this,
Before it's come and gone,
From TV shows to the radio,
What's goin' on?

The world is ever learning,
It ain't turning only when it suits you,
Don't talk about it, be about it,
Grab it when you can and make a move,
Yeah, yeah, yeah

Hey, hey, you,
I need to know,
Just how loud you'll make it,
Once you feel the ground rock

So mister, turn the radio on,
All you girls wanna hang up your phones,
And get on down to this,
Before it's come and gone,
From TV shows to the radio,
What's goin' on?

I can feel it comin',
Yes, there's something building up,
Rushing through the airways,
Like a freeway that you can't stop,
The world is always turning and it's never gonna stop,
So give it all you got, give it all you got

So mister, turn the radio on,
All you girls wanna hang up your phones,
And get on down to this,
Before it's come and gone,
From TV shows to the radio

So mister, turn the radio on,
All you girls wanna hang up your phones,
And get on down to this,
Before it's come and gone,
From TV shows to the radio,
What's goin' on?....What's goin' on?
What's goin' on?....What's goin' on?
