

Brave Combo, Escape From Radioland

Take me to the moon
Take me for a ride
Take me anywhere
I really gotta hide
I don't wanna hear the sound
I just gotta get away
Ooo you see the right through
Writing on the wall
Don't you see it's time?
You know you're gonna fall

I know I'll escape from here someday
I know I'll escape from here someday (yeah)

You're doing such a service
You're meeting some demand
Everything's a favor an out-stretched open hand
I don't wanna hear the sound

I just gotta get away

? ? ? ? ? ? ? ? ? ? ? ? ? ?
Won't you know I need?
Know your irritation
You're causing me to bleed

I know I'll escape from here someday
I know I'll escape from here someday

Repeat verse 2

I know I'll escape from here someday (gotta get away)
I know I'll escape from here someday
I know I'll escape radioland (radioland)
I know I'll escape radioland
