

Bread, Save This Dance For Me

I'll never forget that look in your eyes
The first time I held you and we realized
Something so special was growing inside
Feeling's so deep....not easy to hide
We talked of forever and how we would wait
But the band started playing
Now am I too late...won't you
Save this dance for me and I will lead for you
God has gave me one last chance before my life is through
And in your arms when the music stops is where I want to be
So tell him no and save this dance for me.

No one's been able to hurt me before
And I'll never love like this anymore
Cause there's no one else like you in this world
So much a woman but I call you a girl
I don't mean to doubt you but still I could lose
And I can't live without you so please when you choose...
Won't you save this dance for me and I will lead for you
God has gave me one last chance before my life is through
And in your arms when the music stops is where I want to be
So please be brave and save this dance for me
I won't give up so save this dance for me.
