

# Breakbeat Era, Anti - Everything

My life home life,  
Drought in the night life,  
Half light twilight,  
My life is no life.  
Change come on and do it,  
Shame your'e only fooling,  
I don't find you,  
In the least amusing.  
Blood throb deadline,  
Can't think can't whine,  
Burn ya baby all night,  
Don't forget to do it.

Superskunk affected  
Mind disease belive  
Taste it I can feel it  
Anti everything  
Whack up the smile to factor ten  
It's a dodgyt situation  
Flagship indicator  
Maybe I'll be ready  
I'm just an honest nonsensebreaker  
I ain't worked it out yet  
Steal the thorn and bin the nose  
I was raised a double agent  
Hardwire isolator  
See through invitation.
