

# Breaking Benjamin, Natural Life

Hold still....

All of my life, all of my time  
I don't wanna come back around tonight  
And all that I need, is serenity  
I don't wanna be your new disease

The natural life  
You're born, you die  
The natural life  
You're wrong, you're right  
The natural life  
You're born, you die  
The natural life's a lie

All of my lies, swallow your pride  
I don't wanna come back around tonight  
And all that I need, is serenity  
I don't wanna be your new disease

The natural life  
You're born, you die  
The natural life  
You're wrong, you're right  
The natural life  
You're born, you die  
The natural life's a lie

RIGHT!!!!

You're right, I can never lie  
Let me go, try to find a home  
I can't wait, try to stay awake  
Dead inside, bothered by the lie  
You're right

The natural life  
You're born, you die  
The natural life  
You're wrong, you're right  
The natural life  
You're born, you die  
The natural life's a lie

A lie....
