

# Breaking Benjamin, Next To Nothing

Release and sway  
I just can't take your breath away  
You cut me down  
You know I'll always be around  
So now I wait  
I know you'll live another day

Come and take my breath away  
Look me straight in the face

(chorus)  
Cause I know it's over  
Growin' colder  
I need something  
Leave me next to nothing  
All we ever wanted  
I need something  
Leave me next to nothing  
Next to nothing

I cut you down  
I know you'll always be around  
So now you'll wait  
I know you'll live another day

Come and take my breath away  
Look me straight in the face

(chorus)

Next to nothing  
Next to nothing  
Next to nothing  
Next to nothing

woo

(chorus)

Next to nothing  
yeah
