

Breaking The Silence, Overdose

Some people feel the void inside
They try to fill the emptiness
With anything in touch or sight
They try to ease the pain
The void affects everyone
But how we respond is up to us
I can feel you now like a virus in my veins
I want you more and more
Jesus you're my overdose
People have sex and drink to death
And some depend on drugs for peace
But nothing else can satisfy
I think it's time for change
I can feel you now like a virus in my veins
I want you more and more
Jesus you're my overdose x2
I can feel you now like a virus in my veins
I want you more and more
Jesus you're my overdose x2
You're my overdose
