

# Breathe Carolina, I.D.G.A.F

A constant red on for days and days  
I see those lights reflected on your face  
Everything can change the the moment that you blink,  
But I don't mind

So if you wanna come in then come in  
Disintegrate into me tonight  
And if you wanna give in then give in  
Anything that you feel is right

Even if this chemistry's catastrophe  
I don't give a fuck (I.D.G.A.F.)  
If you wanna taste then take a bite right out of me  
I don't give a fuck (I.D.G.A.F.)

Freezing time like a strobe on you  
Breathing in electronic fumes  
We've made our minds and we've made our bed,  
So lets sink in

So if you wanna come in then come in  
Disappear into me tonight  
And if you wanna give in then give in  
Anything that you feel is right

Even if this chemistry's catastrophe  
I don't give a fuck (I.D.G.A.F.)  
If you wanna taste then take a bite right out of me  
I don't give a fuck (I.D.G.A.F.)

We're not built to last, shatter like glass, so come on, come on  
I don't give a fuck (I.D.G.A.F.)  
I can't remember anything, like what's your name?  
I don't give a fuck (I.D.G.A.F.)
