

# Breathe Carolina, No Vacancy

Tonight, I find out  
Just what you're all about  
I'm the one that's come looking for you  
I got the bottle, baby It's all you  
Showed up to the room about 3 or 4  
Ladies running, running right out the door  
We came here to party like  
Its going out (oh shit)  
We'll do this the whole night  
This could be what we needed  
We can do what we want to  
A single melody to give this meaning  
This memory is making moves  
We came here to party like  
Its going out of style  
I'm ready to go  
I got the bacardi  
We got the bottle topped  
Who's ready for more?  
Let's start this party  
We got everything you're looking for  
We came here to party like  
Its going out (oh shit)  
We'll do this the whole night  
This could be what we needed  
We can do what we want to  
A single melody to give this meaning  
This memory is making moves [x2]
