

# Brenda Lee, Do You Wanna Spend The Night

We got the whole night to ourselves soft music to play  
First look and I fell in love  
You just blew me away  
Your eyes tell me everything  
True expressions don't lie  
This moment in time is ours, but it's passing us by

Do you wanna stay, do you wanna spend the night  
Do you wanna just make love  
Or do you wanna spend the night

You make me feel easy  
Easy such a nice style  
Tonight is that magic time  
That comes once in a while

Do you wanna stay, do you wanna spend the night  
Do you wanna just make love  
Or do you wanna spend the night

Do you wanna stay, do you wanna spend the night  
Do you wanna just make love  
Or do you wanna spend the night

Do you wanna stay, do you wanna spend the night  
Do you wanna just make love  
Or do you wanna spend the night
