## Brenda Lee, It's The Talk Of The Town

I can't show my face can't go anyplace people stop and stare it's so hard to bear Everybody knows you left me it's the talk of the town Everytime we meet my heart skips a beat we don't stop to speak know it's just a week Everybody knows you left me uhm it's the talk of the town We send our invitations to friends and relations advancing our wedding day Friends and our relations gave congratulations how can you face that what can you say Let's make up sweetheart we can't stay apart Don't let foolish pride keep you from my side How can love like ours be ended it's the talk of the town

We send our invitations...
