

Brett Young, Let Go Too Soon

Do you ever think about me
And miss the way I looked at you?
And do you ever reach across the sheets
From me like you used to?
Do you ever wake up lonely
And you just can't leave the room?
Do you ever wonder the way I wonder
If we let go, did we let go?

I've been going out with friends
I've been drinking too much whiskey
Burning candles at both ends
But nothing seems to fix me
'Cause no matter what I do
I still wake up missing you
Do you do that too?
Did we let go, did we let go
Did we let go too soon?

Do you live in New York City
Or did you move to Newport Beach?
Do you compare every guy
That you meet to me?
Do you ever feel broken?
Do you ever feel lost?
Baby is this really over
Or did we just let it stop?

'Cause I've been going out with friends
I've been drinking too much whiskey
Burning candles at both ends
But nothing seems to fix me
'Cause no matter what I do
I still wake up missing you
Do you do that too?
Did we let go, did we let go
Did we let go too soon?

Yeah

All that I can think about is
What would happen if you stayed?
And all I need to know right now is
Do you ever feel the same?

'Cause I've been going out with friends
I've been drinking too much whiskey
Burning candles at both ends
But nothing seems to fix me
'Cause no matter what I do
I still wake up missing you
Do you do that too?
Did we let go, did we let go
Did we let go too soon?

Did we let go too soon?
