

# Brettell, Stop Trying Your Hardest

Hang on  
Hang on  
What do' you say?  
You know I've got so much to do  
May your time (may your time)  
Have faith (have faith)  
What do' you say? (what do' you say?)  
In Destiny you try to hard

So all of your ways  
Are fading away  
Just try and not worry  
I'll tell you some day  
Take some advice  
And lead your own way  
Just stop trying your hardest

Get real (get real)  
Believe (believe)  
That your right (I'm right)  
You'll never be what you want to be

So take it away  
Believe what you say  
I try and not worry  
Cause I'll see her some day  
I give what I can  
Not over doing it  
Just not trying my hardest

Cause all of this time  
I thought they were right  
You knew the out come when  
You left them last night  
Take all you may need  
And then start to read  
And stop trying your hardest

Believe what you want  
Believe you want more than this  
You have been told differently  
That things will be okay  
Take the new words  
And have more than your say  
And stop trying your hardest

Stop trying your hardest (x3)
