

# Brettell, That Night

That night, she said  
She would never be seen  
With who, with me  
Well I feel left out, so I  
I turned round, I really don't care no more  
I know this for sure  
I'm going back for more  
But I've just been in this club for just fifteen minutes now  
I'm feeling oh so down  
And I don't know why  
I would run for miles

See my friends they don't understand  
No girl friends will ever understand  
That I just want some one in my life  
That I just want some one in my life

That night, she said  
I don't like your hair,  
It's all messed up (it reflects your life)  
And your life messed up (so she messed it up)  
So I, I turned round  
And looked at her in the face  
There was a great success  
We left together that same night, yeah

Oh my friends they don't understand  
Specially parents will not understand  
That I just want some one in my life  
Is that just too much to ask

That night, I said  
I was gonna find myself someone  
Someone to call my own  
For no one else to share, So I  
I went round  
To all my female friends  
I'm hoping this for sure  
I really want some more yea  
And I don't want to be shown the door .....
