

# Brettell, Thinking About You (Not Going Left Rem

the sun comes up, I think about you  
drink from my cup, thinking about you  
the night will end, I think about you  
I talk with friends, thinking about you  
I have a thing, thinking about you  
I found this ring, thinking about you  
you said you liked me, I thought you were just being kind  
or more like I was losing my mind  
sometimes I stand on my bedroom floor  
not going left, not going right

I switch the lights, and think about you  
I have endless nights, thinking about you  
I stare at the stars, thinking about you  
wish you were in my arms, to think about you  
my day will start, I think about you  
we're so far apart, I still think about you  
you said you liked me, I thought you were just being kind  
or more like I was losing my mind  
sometimes I stand on the kitchen floor  
not going left, not going right

setting sail, I think about you  
I bite my nails, thinking about you  
I use a fork, and think about you  
I love to talk, talking about you  
when I'm with you, I think about you  
when I'm with her, I think about you  
you said you liked me, I thought you were just being kind  
or more like I was losing my mind  
I stand and feel as if I'm ..  
not going left and not going right
