

Brettell, You Only Try And Pull Me When Your Dr

what a disaster, that night
should of resented of going that night
looked like you wanted a fight
with a girl who seemed to be in the right
and how the mood changes on the day
you were an angel sat over there in silence
as a drunk
you only try and pull me when your drunk

its better than nothing, I suppose
some doors will open whilst others will close
I wouldn't see you exposed
to the horror of those some pose
somebody said now listen
don't you know I'm so missin
missin the kissin, as well as dissin
like you care
you only try and pull me when your drunk
you only try and pull me when your drunk

some of my friends keep asking me why o why
you never say goodbye if you don't
even try, you'll feel sunk cause
she only tries and pull you when she's drunk
