

# Brian Jonestown Massacre, Fucker

i've been sitting in my room so long  
i think about the ways you've done me wrong  
again  
fucking bitch she tried to break my heart  
the way she loves me i just fall apart there's  
no end

oh,  
once you half start.  
oh,  
once you half start.

and the people walk around this town  
fucking asshole try to drag you down they're your  
friends  
with their daggers sharp inside your heart  
they can't love you they just play the part there's  
no end

oh,  
once you half start.  
oh,  
once you half start.  
oh,  
la la la la
