

Brian Jonestown Massacre, Fucker

i've been sitting in my room so long
i think about the ways you've done me wrong
again
fucking bitch she tried to break my heart
the way she loves me i just fall apart there's
no end

oh,
once you half start.
oh,
once you half start.

and the people walk around this town
fucking asshole try to drag you down they're your
friends
with their daggers sharp inside your heart
they can't love you they just play the part there's
no end

oh,
once you half start.
oh,
once you half start.
oh,
la la la la
