

Brian Jonestown Massacre, Never, Ever!

I never wanted, never wanted to be
Until I wanted to be with you
And I never dreamed all the things I could see
Until I saw myself with you

I can not tell you enough
How much I wanted to love
How long I've waited to love and be loved
And be with you<

I never thought, never thought I was free
Until you gave yourself to me
And I never dreamed all the things I could be
Until you showed yourself to me

I can not tell you enough
How much I wanted to love
How long I've waited to love and be loved
And be with you
And be with you

I never wanted, never wanted to be
Until I wanted to be
And I never dreamed all the things I could see
Until I saw myself with you<

I can not tell you enough
How much I wanted to love
How long I've waited to love and be loved
And be with you
Yeah, and be with you
And be with you
And be with you
And be with you
And be with you
And be with you
Yeah
Uh huh
And be with you
And be with you
And be with you
And be with you
And be with you
And be with you
You
You
You
You
You
You
You
