

# Brian Jonestown Massacre, Stars

I thought i could touch the stars  
I lie alone at night  
I don't know where you are  
my face explodes  
teardrops into tears  
and every second I'm not with you  
well it seems like years.

I've told you  
how I love you  
and need you  
will kill you  
yeah, yeah

I won't die  
but I don't feel the same  
I lie awake at night  
hoping to see you again  
my face explodes  
teardrops into tears  
and every moment I'm not with you  
well it seems like years.

I love you  
I need you  
yeah, yeah  
and I told you  
that I'd kill you  
yeah, yeah
