Brian Jonestown Massacre, (You Better Love Me)

when I think about the life that you gave
and who are you trying to save?
everyone of them you dug a grave
you better love me
before I am gone

when I think about the good times and bad
and being so happy and sad
quit it now cause' i'm getting mad
you better love me
before I am gone
so long

well I think about the future and past
because the presnt it goes by so fast
and my money won't last
you better love me
before I am gone
come on
