## Brian McComas, Come With Me

You say you want a lover with a sense of danger Come with me If you think im tryin' to steal your heart Baby give it some time It could be that we might found out It's you who's stealin' mine

## **CHORUS**

Come with me, let's hang out Let's shout from the rooftops And run through some raindrops And make love and don't stop Who knows where we'll end up Who cares, just come with me

You say you want somebody just as wild to run with Come with me
Someone that you know you're gonna feel one with Come with me
Girl, you know I'm taken by your confidence
It's a beautiful sight
When I see what I want, I go right after it
And that's what I'm seeing tonight

## **CHORUS**

Come with me, let's hang out Let's shout from the rooftops And run through some raindrops And make love and don't stop Who knows where we'll end up Who cares, just come with me

Baby, come with me Oh baby, come with me, let's hang out Let's shout from some rooftops

And run through some raindrops
We'll make love and won't stop
Who knows where we'll end up
And who cares, just come with me
Come on, baby
Oh baby come with me
Come with me, oh yeah
Oh baby, come with me
Oh baby, come with me
Come with me, come with me
