

# Brian McComas, Night Disappear With You

Everybody's talkin'  
Everybody's sayin' it's a hot time  
Heading downtown  
To mess around for the whole night  
Oh, but I don't wanna go nowhere  
I just wanna stay right here with you, with you

Let you save me from the places  
That I tend to go  
There ain't nothing I would rather do  
Well, let me sit right here  
And watch the night disappear with you

Oh, well everybody's talkin'  
Everybody's sayin' that it's gonna be fun  
It's a place to be  
If you want to go and see everyone  
No, but I don't wanna go nowhere  
I just wanna stay right here with you, with you

Let you save me from the places  
That I tend to go  
There ain't nothing I would rather do  
Well, let me sit right here  
And watch the night disappear with you

I'm gonna let you save me from the places  
That I tend to go  
There ain't nothing I would rather do  
Well, let me sit right here  
And watch the night disappear with you
