

Brian McKnight, It Was You

I was so alone
I was so afraid
So suddenly you were here
To make all my darkness disappear
I asked myself who are you
And why do you do all the things that you do
Whenever I fall, you're there
To show me how much you really care

Chorus:

Baby it was you that, picked me up when I was down
One look in your eyes, yeah, turned me around
Now I have you in my arms tonight
It was you, that saved my life
And I know, that I know, that I know, know, know, know
It was you, that saved my life

I was so confused
I could I feel this way about you, baby ooh
They say love is so hard to find
From the very first moment that your lips met mine
It was you

Chorus:

Baby it was you, yeah, that picked me up when I was down
One look in your eyes, yeah, turned me around
Now I have you in my arms tonight
It was you, that saved my life
And I know, that I know, that I know, that I know, know
It was you, that saved my

You're with me in every breath I take
Believe me when I say

Chorus:

Baby it was you, yeah, that picked me up when I was down, oh yeah
One look in your eyes, yeah, turned me around
Now I have you in my arms tonight
It was you baby, that saved my life
Do it again, yeah
You, that saved my life
