

Brian McKnight, Stay (Gemini Version)

You know you got me open
An' it's crazy peekin' at you sittin' in my ride
You better not be jivin'
'Cause I been waitin'
An' later you'll be at the crib tonight

An' I never wanted no one else like this in my life

(Chorus:)

Girl you know I want it baby
Why don't you stay
Girl you know I need it baby
Why don't you stay
Girl I gots to have it baby
Why don't you stay
Girl you got me fiendin' baby
Why don't you stay

Been anticipating, contemplating
What you might be thinkin' behind those eyes
Do you want me like I'm wantin' you
Tell the truth
This just feels so right

And I never wanted no one else like this in my life

(Chorus)

No pressure girl
You are my world
I thought of everything
So you don't have to worry at all

The candlelight
The mood is right
It's time
Let's get it on

(Chorus)
