

Brian McKnight, Up Around My Way

You can call me day and night,night and day
Girl you're all that I want
I need you up around my way
We go together like a potter and clay
Girl you're all that I want
I need you up around my way

Michael Angelo would faint Rembrandt
Would cry to stand in line for a lock of your hair
I'd fly around the world just to be
Close to you
Anytime,anyplace,anywhere

Chorus:You can call me day and night,night and day
Girl you're all that I want
I need you up around my way
We go together like a potter and clay
Girl you're all that I want
I need you up around my way

Now looking in your eyes I see the real
Reason why stars like to fall from the sky
You're all I think of,that's why I got to
Let you know how you blow my mind
You're just my type,just my kind

Chorus(repeat)

Just tell me what I should do
Tell me what I should say
Rub me,I'm your genie your wish is my
Command right away
Can we talk about it lady
Can we get together
I'm free,I'm free

Chorus(repeat)
