

Brian Molko ft. Timo Maas, First Day

Brian Molko ft. Timo Maas - First Day

I see you comin' underground

So help yourself to guns and ammo

Nothing here has ever seen the light of day

I leave it in my head

It's the first day of the rest of your life

It's the first day of the rest of your life

It's the first day of the rest of your life

It's the first day of the rest of your life

Remember me, for the rest of your life

Remember me, for the rest of your life

It's the first day of the rest of your life

It's the first day of the rest of your life

It's the first day of the rest of your life

It's the first day of the rest of your life

It's the first day of the rest of your life

It's the first day of the rest of your life

It's the first day of the rest of your life

It's the first day of the rest of your life

Don't throw it up

Don't throw it up

Remember me, for the rest of your life

Remember me, for the rest of your life

It's the first day of the rest of your life

It's the first day of the rest of your life

It's the first day of the rest of your life

It's the first day of the rest of your life

It's the first day of the rest of your life

It's the first day of the rest of your life

It's the first day of the rest of your life

It's the first day of the rest of your life

It's the first day of the rest of your life

It's the first day of the rest of your life

It's the first day of the rest of your life

It's the first day of the rest of your life
