I'm gonna take my baby On a little joy ride She'll be ghost-white pale Sittin' by my side Shakin' like a leaf And it ain't no wonder Drive like lightning Crash like thunder

I'm gonna race with the devil Speedin' down the track And if he beats me to the line I ain't a-comin' back You ain't worth nothin' When your six feet under Drive like lightning Crash like thunder

Drive like lightning
Crash like thunder
Ain't worth nothin'
When your six feet under
All wrapped up
In hot chrome and steel
Drag my body
Behind the wheel

Got a pair of dice swingin'
In my Detroit casket
I got a rabbit foot hangin'
From my black leather jacket
We won't get out alive
So it ain't no wonder
Drive like lightning
Crash like thunder

Baby please try to understand I'm just a little speck of dust Blowin' in the sand We won't get out alive So why should we wonder Drive like lightning Crash like thunder
