

# Brian Setzer, From Here To Eternity

I know your not that  
Kind of girl  
To ever lose her cool  
I know you've thought about it  
Over and over  
Thinking that I was a fool

You know I'm not  
That kind of guy  
I never plan things out  
You know I've thought about you  
Over and over  
Never a trace of doubt

I finally got that road we're on  
Mapped out

We're on the road  
From here to eternity  
The world is ours  
As far as we can see  
We're hopping star to star  
Through the galaxy  
We're flyin' high  
Let the world pass us by  
From here to eternity

You know that I wanted  
To see you again  
If just to say hello  
You know I tried to call you  
Over and over  
I finally think that I know, I know

I know your just  
That kinda girl  
You need to work things out  
You know I've thought about you  
Over and over  
Never a trace of doubt

Well I finally got that road we're on  
Mapped out

We're on the road  
From here to eternity  
The world is ours  
As far as we can see  
We're hopping star to star  
Through the galaxy  
We're flyin' high  
Let the world pass us by  
From here to eternity
