

Brian Setzer, Your True Love

Your love
Your true love
Your true love baby that's what you give to me

Your love
Your true love
Your true love baby that's what you give to me

Well God made the world and he made it round
I got my baby and I'm glad I found
Her love was meant for me
And my baby she'll always be

She gives me true love
Your true love
Your true love baby that's what you give to me

Your love
Your true love
Your true love baby that's what you give to me

Well love was made and I don't boast
When he made you he made the most
You've got that certain touch
And to me baby you mean so much

You give me your love
Your true love
Your true love baby that's what you give to me

Oh your true love
Your true love baby that's what you give to me
You give me something baby hard to forget

You give me your love
Your true love
Your true love baby that's what you give to me
Your true love baby that's what you give to me
True love baby that's what you give to me
Oh baby true love baby that's what you give to me
