

Brian Wilson, Country Feelin'

Country feelins they're a-callin me
And brother I'm feelin' fine
Wanna cut loose from the city
Get out and run around
Country feelin's movin' in
My feet are dancin' in the hot sunshine
I'm gonna spread that country feelin' all around the town

Country feelin's at a county fair
And under a big blue sky
See those bright birds fly
Cotton candy and apple pie
Country feelin's puttin' me on top of the world
On this happy day
I'm gonna spread that country feelin' all around the town

Country, country feelin'
Country, country feelin'
Country, country feelin'
wo wo oh-oh

Country feelin's they got me sittin'
Right there in a rockin' chair
On a porch outside with a cold lemonade in the
Clean fresh air
Stand up tall be proud of yourself
And you just step out there
I'm gonna spread those country feelin's all around the town
I'm gonna spread that country feelin' all around the town
I'm gonna spread that country feelin' all around the town
I'm gonna spread that country feelin' all around the town

I love it
