

Brian Wilson, How Could We Still Be Dancin'

Dancin', dancin'
Dance the night away
Dance the night away
1:30 ... 2:30
Dancin' my love
How could we still be dancin'
After all these years
How could we still be laughin'
After all those tears?

How could we still be friendly
After slammin' those doors
How could we still be livin'
After all those wars

Hey, everybody
Help to make this feelin' right
Oh, won't you help to make this feelin' right

How could we still be rockin'
After all those times
How could we still be rolling'
And still be makin' rhymes?

How could we still make music
After MTV
How could we still get things crankin'
And see what we can be

Hey, everybody
Help to make this feelin' right
Oh, won't you help to make this feelin' right

Dancin', dancin'
Dance the night away
Dance the night away
1:30 ... 2:30
Dancin' my love

How could we still be dancin'
After all these years
How could we still be laughin'
After all those tears
How could we tell the difference
Between right and wrong
Confusion reigned for so long
But now we found our song

Hey, everybody
Hey, everybody
