

Brian Wilson, Live Let Live

I've got a notion we come from the ocean
And God Almighty has his hands on the water
Blue Pacific, as azure as the sky

Perfect for fish, making a wish
Just like a teardrop to fall
Whale passin' me by, wonderin' why
Live let live, not die

I am a diver, a long-line survivor
And man's small whale's all
Body gravity zero
Play the hero, don't mean nothing you see

Man passin' by, caught in the eye
Ponderin' wherefore and why
God help me for whale babies that cry
Live let live, not die

My heart beats so fast
"(heartbeat, heartbeat, heartbeat...)"
Our hearts meet at last

Feature creatures of God
Let them abound, where they are found
Let's get the hell outta here
