

# BriBry, Care

I'd be lying if I said I never thought of dying alone  
But I'm so vulnerable to just about everyone  
And only one friend knows me  
I sigh when another year is over  
Where I've so little to account for  
Oh what happened to the days of being happy?

If I told you what I'm feeling  
Do you promise me you'll stay?

When we were little  
Did you think you would be  
Living in the middle  
With someone like me  
I will not care for myself  
I can not care for myself

I'll try to be a little bit stronger  
'Cause if I'm waiting any longer  
There'll be no souls beside me  
Be mine, I will appreciate your beauty  
Doubt you'll ever even knew me  
Oh I just want to make you happy

If I told you what I'm feeling  
Do you promise me you'll stay?

When we were little  
Did you think you would be  
Living in the middle  
With someone like me  
I will not care for myself  
I can not care for myself

I will be just so much better  
I will love you so much more  
I can not help myself  
I can not help myself  
I will not help myself  
I will not help myself

When we were little  
Did you think you would be  
Living in the middle  
With someone like me  
I will not care for myself  
I can not care for myself
