

# Brie Larson, Shoebox

I kept your picture in my shoebox (3x)

Right now is all we need  
'Cuz this feels pretty good  
And I would stop the world  
Just to give us more time

I kept your photograph and sometimes I take a look  
Do you think I should  
Are you gonna leave  
Is she a better girl  
And does she know about me

Hey you  
I think you're going in the wrong direction  
Hey you  
I could be everything you want  
And it's true  
You must have been something special to me  
'Cuz after all this time  
I kept your picture in my shoebox

Tonight was you and me  
And it felt pretty good  
Just like we stopped the world  
For a minute in time  
And then you made me laugh  
About all the things we did  
Do you think we should  
Did you have to leave  
And the other girl  
Does she know about me

Hey you  
I think you're going in the wrong direction  
Hey you  
I could be everything you want  
And it's true  
You must have been something special to me  
'Cuz after all this time  
I kept your picture in my shoebox

I hear you talk but your mouth is closed  
You say the words and let me know  
I can't speak I'm petrified  
Wanna tell you what I feel inside

I kept your picture in my shoebox (2x)
