

Bright Calm Blue, The North Bottoms

Analyst says, separate
change for the city by direction.

For government this is a mark of progress?

Mechanize, asymmetry set.

A public employed by arrogance.

Industry of incompetence.

The compass points from privilege, magnetic to the labor it's the waste of more time.

Making a new place the city gets more of the same.

Asymmetry laid to sleep.

Cement breaks the concrete, splits and spreads again and end on the curb and in your street.

A city grows incomplete slaved by asymmetry.

Pattern.

Pattern set.

Pattern to fill lives with more of nothing.

A city grows incomplete in pattern of broken streets.

So many loses.

So many lives that bend to the will of someone else.
