

# Brighten, Television

And you believe everything your lyrics tells you  
And you believe everything your favorite singer sings you  
But I've been listening

And you believe everything you see on TV  
And try to live your life like a movie  
But I've been watching

I saw fire burning buildings  
The poor taking money from the willing  
When they ask you say you like it cause it's thrilling  
I always wished that you would listen  
I blame the television  
I blame the television

So why won't you take it from me?

I saw fire burning buildings  
The poor taking money from the willing  
When they ask you say you like it cause it's thrilling  
I always wished that you would listen

You can fly  
I will never die  
You can do anything you want to if you try  
I am a robot  
And you're an alien  
I've been lying to you  
But you believed it  
Yeah you believed it
