

# Brighton Rock, Can't Wait For The Night

Never can escape the night  
Racing hearts meet  
At the neon lights  
Entangled in dark feelings  
Still some hearts stand alone

But he sees the light  
The thrill belongs to the night  
This time love may arrive  
It keeps him alive  
So alive

Can&#039;t wait for the night (for the night)  
Can&#039;t wait for the night (for the night)  
Can&#039;t wait for the night  
You know it&#039;s alright, alright

Thirst for action and desire  
You know sometimes  
Love doesn&#039;t matter  
Echoes crying out his name  
Chasing shadow with no face

But soon he sees the light  
The thrill belongs to the night  
This time love may arrive  
It keeps him alive  
So alive

Can&#039;t wait for the night (for the night)  
Can&#039;t wait for the night (for the night)  
Can&#039;t wait for the night  
You know it&#039;s alright  
And I sit waiting for the night

(Solo)

Can&#039;t wait for the night (for the night)  
Can&#039;t wait for the night (for the night)  
Can&#039;t wait for the night  
You know it&#039;s alright

Oh, can&#039;t wait for the night (for the night)  
Can&#039;t wait for the night (for the night)  
Ooh, yeah, can&#039;t wait for the night  
You know it&#039;s alright

Can&#039;t wait for the night (for the night)  
Can&#039;t wait for the night (for the night)  
Can&#039;t wait for the night (for the night)  
Can&#039;t wait for the night (for the night)  
Can&#039;t wait for the night (for the night)  
Can&#039;t wait for the night
