Brighton Rock, Young, Wild And Free

Oh, yeah

Take all the things you want in life & amp;#039; Cause you get nothin& amp;#039; for free Turn out the lights Let's party down Time to show you& amp;#039;re Young, wild and free

Raise the roof, come on now All hell breaks loose The kids are on the loose You got nothin to lose Now when the boys start rockin' Unleash the town Come on and take a stand

(We rock, young, wild and free) Young, wild and free (We rock, young, wild and free) Oh, young, wild and free

Yeah, they'Il try to put you down You won't dance to that beat Now we're here to rock your town Kickin' out, young, wild and free

Raise the roof, come on now All hell breaks loose The kids are on the loose You got nothin' to lose Now when the boys start rockin' Unleash the town, Young, wild and free

(We rock, young, wild and free) Young, wild and free (We rock, young, wild and free) Oh, yeah, young wild and free

(Solo)

I'm wild and free

Watch out, the boys are rockin' Unleash the town

(We rock, young, wild and free) Come on and take a stand (We rock, young, wild and free) We rock (We rock, young wild and free) We rock (We rock, young, wild and free)

I'm free Oh, yeah Let it ride
