

Bring It On, The Last Cheer

Everybody is tryin' to break us down
But they just are too shy to come around
Bein' forced fed
Gettin' what you get

Anybody else could've been a star
But me?... no, I wouldn't ever end up far
But then I opened my eyes
Shouted that in the sky

This is what I like in me
In me
First I fall and then I lift myself up
This is what I like in me
Me , yeah
I will do this for me
This is really not my last cheer
Last cheer, cheer, cheer
Not my last cheer
This is what I like in me

Nobody doesn't feel any good about themselves
Then clearly, suddenly
They feel that they're on top of the world

Fallin' down, in small town
I wanna get away
Save myself for big day

But then I opened my eyes
Shouted that in the sky
Sky, sky....

This is what I like in me
In me
First I fall and then I lift myself up
This is what I like in me
Me , yeah
I will do this for me
This is really not my last cheer
Last cheer, cheer, cheer
Not my last cheer
This is what I like in me

Little girls, think they know the world
Without their dreams about boys
It's my dream
My last cheer
Never gonna give up never gonna hold back no more!

Never gonna give up
Shoutin' my last cheer
Hold back, don't do it

This is what I like in me
In me
First I fall and then I lift myself up
This is what I like in me
Me , yeah
I will do this for me
This is really not my last cheer
Last cheer, cheer, cheer
Not my last cheer
This is what I like in me

Like in me yeah
Diggin' the last cheer yeah
Knowin' the world bein' mine
I'm makin' it fine
My last cheer
