

# Bring Me The Horizon, Death breath

The sun goes down, we come out No Need For Introductions, I've Read About Girls Like You On T  
the sun comes up, we come down  
we lived fast and died pretty  
"We're all vampires and we own this fucking night"  
I'm not homesick, I'm just so sick of going home  
I've been walking these streets for days  
in search of blood yeah.  
I'd kill for the sun to never rise again  
I'd do anything, oh anything  
so tie a rope around my neck, pull it tight  
until it breaks. You can't kill us  
we'll never fucking die.  
I want to sink my teeth into all of you  
if only I could show you just how sweet this could be  
but you leave a bad taste in my mouth  
so spit it out, so spit it out
